

Product Catalogue 2025

Confidence in
every journey

An aerial photograph of a two-lane asphalt road that curves through a dense forest. The road is dark grey with a white dashed center line and white solid edge lines. The forest is composed of various shades of green trees and shrubs. The road enters from the bottom left and curves towards the top right. The text "The driver of every journey." is overlaid in the upper left quadrant in a white, sans-serif font.

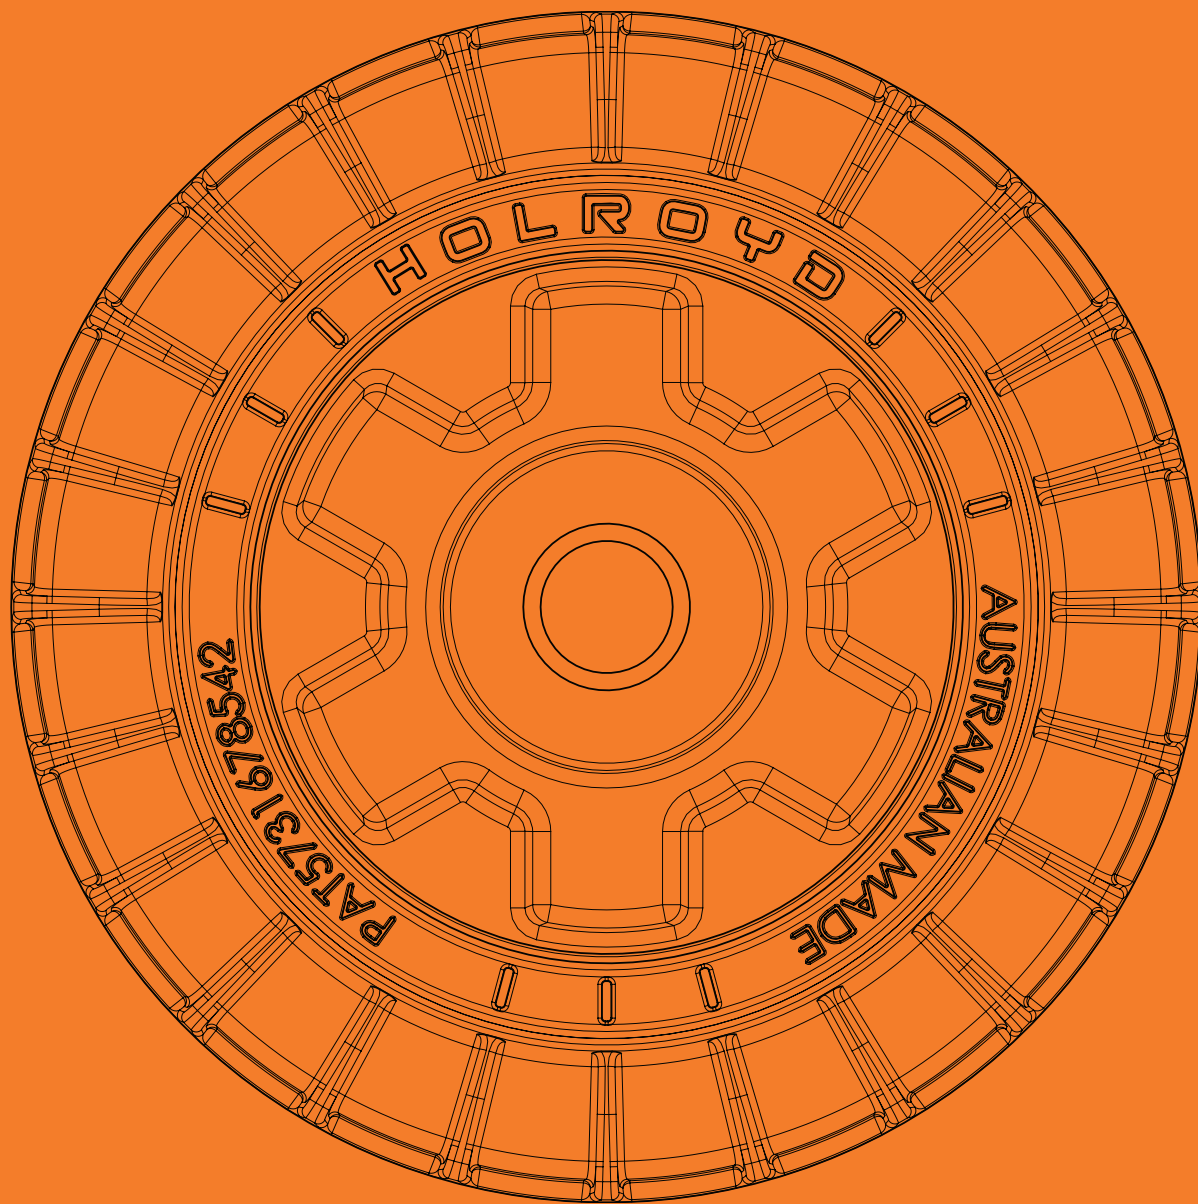

The driver
of every
journey.

Confidence in every journey.

Holroyd, your trusted partner in the trailer manufacturing industry. Based in Australia, we proudly produce a wide array of high-quality products, including axles, stubs, drums, and hubs, all designed to meet the rigorous demands of trailers, horse floats, Rvs, and equipment used in agriculture and mining. Our experience extends beyond this to produce a range of customer specific engineering requirements utilising the latest technology in expert CNC, robotic welding and fabrication requirements.

Our commitment to excellence is reflected in our extensive range of components, ensuring durability and performance. At Holroyd, we are dedicated to providing innovative solutions that drive the industry forward, making us a leader uin the market and a name you can rely on.

Consider the trailer load to ensure the vehicle can adequately support the weight and purpose of the vehicle. Parts that are not fit for purpose, can have a detrimental effect on the trailer alignment, causing trailer damage or vehicle control issues, which can effect other drivers and surroundings.

Introducing our latest innovation

Designed and crafted with precision in-house engineering at Holroyd, the HX3 system is Australian owned and certified for quality assurance. This package boasts an enhanced carry capacity.

Featuring a robust 63mm square stub axle forged from premium Australian steel. Coupled with XT backing plates and off-road brake magnets to ensure exceptional durability and braking performance. Backing plate fitted with convenient quick connections.

Our 3T hub is meticulously machined engineered to outlast our competitors, run cooler and weigh less. Designed to effortlessly navigate both on-road and off-road conditions, it's the epitome of safety, reliability, and performance.

HX3

STUB

- 63mm square stub
- Australian steel
- Australian machined
- 3 tonne capacity
- CNC machined
- Locating adaptor

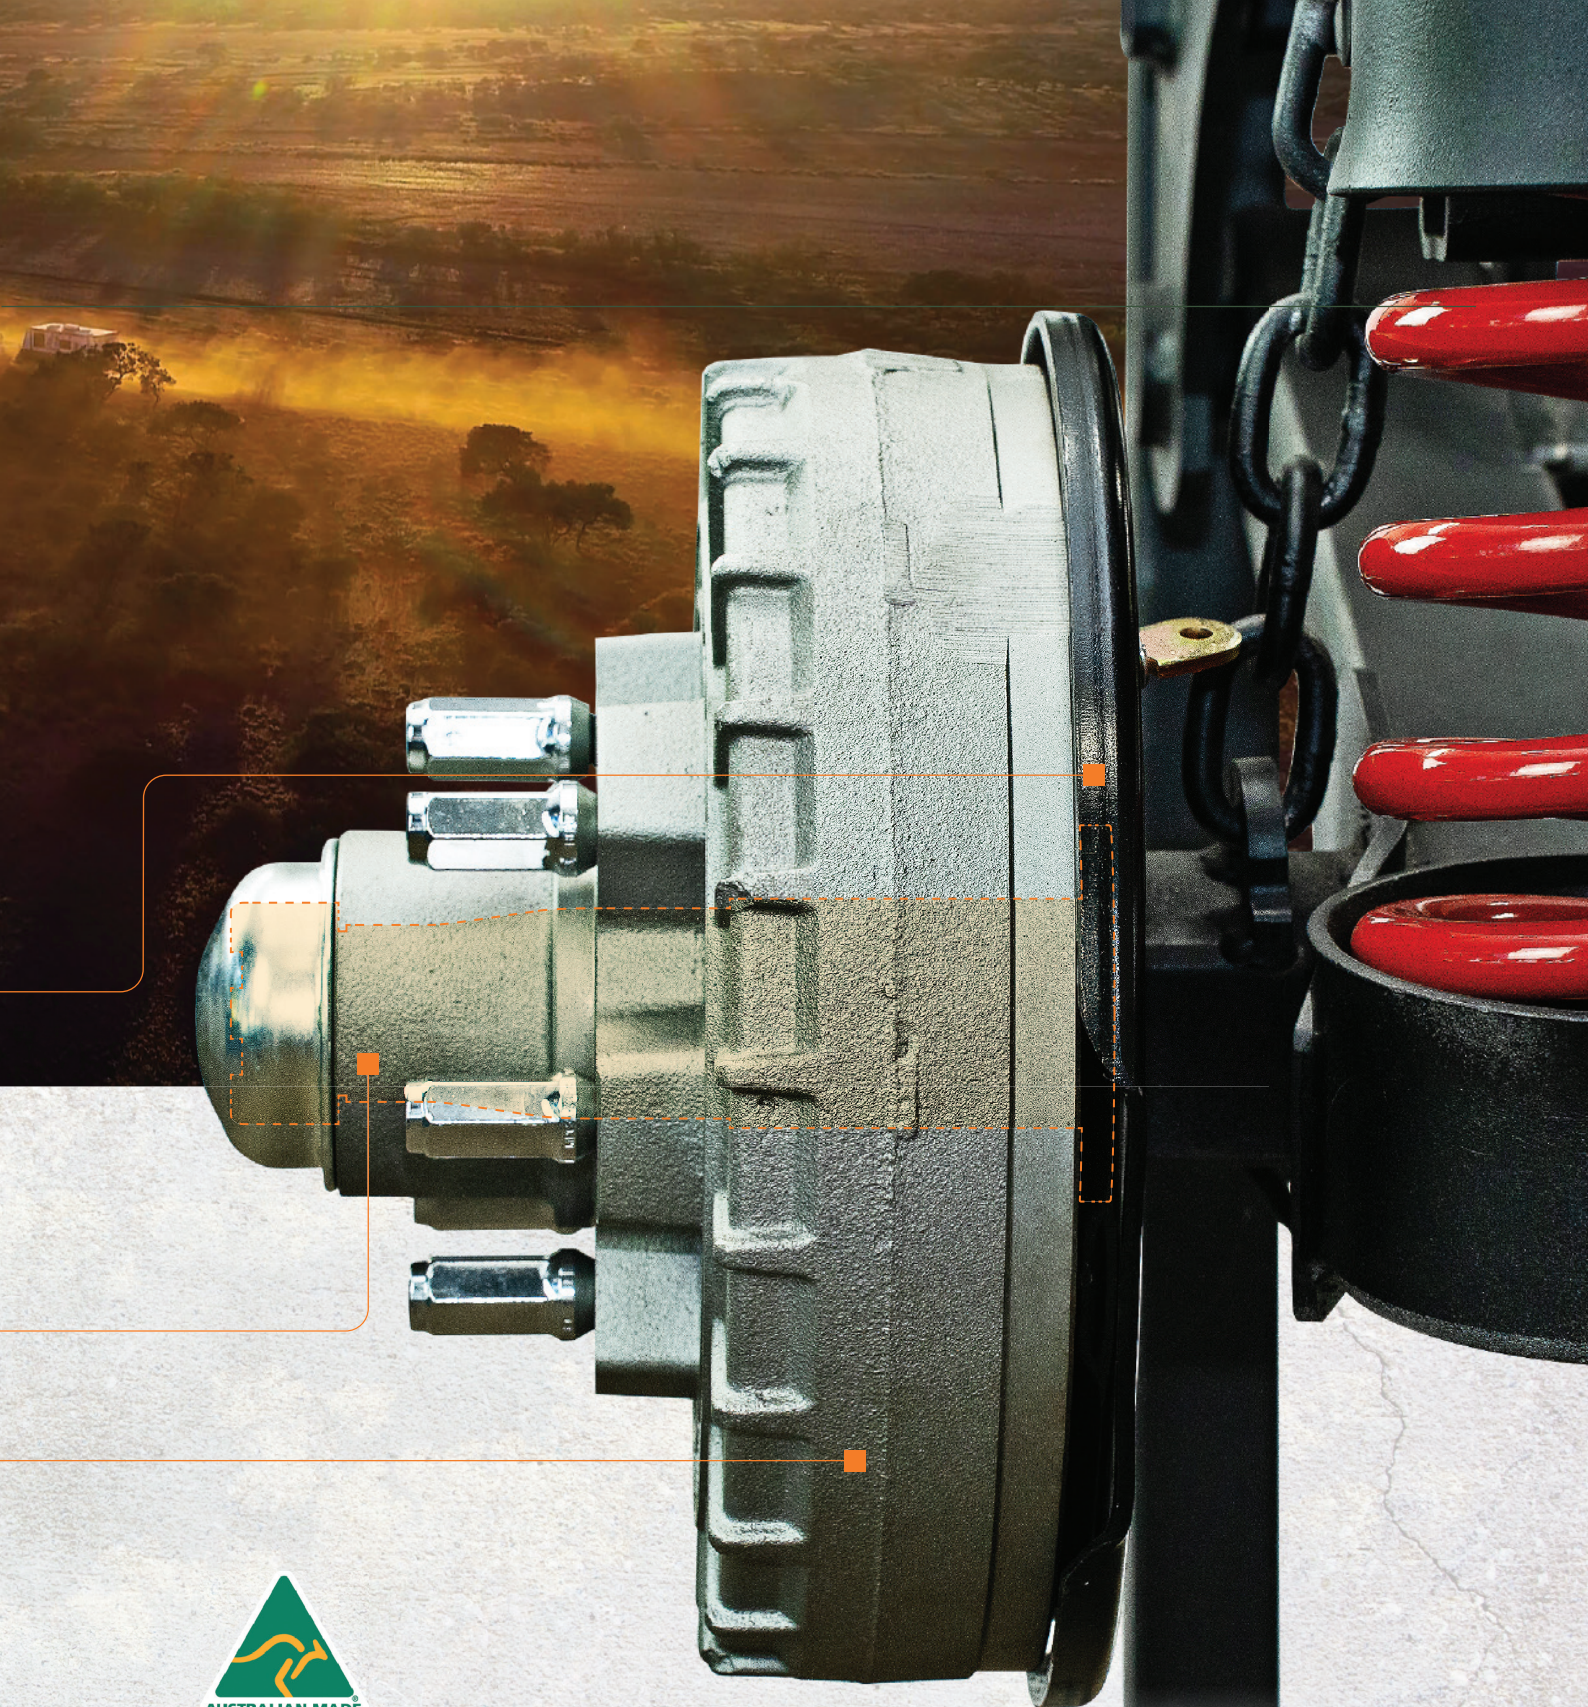

BACKING PLATE

- XT rated at 2800kg
- Independently Australian certified to meet standards
- Off-road brake magnet
- Electric brakes
- Quick connect
- Quick plug and play connections

HUB

- 3 tonne rated carrying capacity
- Australian casting
- Designed at Holroyd
- Lighter than other products
- Stronger design integrity, unique fin design and hub locator
- Greater durability providing heat dissipation
- NSK (Japanese bearings)
